

Judge Richard G. Stearns: ELECTRONIC ORDER entered denying 115 Motion to Strike. Egenera seeks to strike Cisco's invalidity expert report on the basis that Cisco failed to disclose in its contentions the prior art UNC Catalyst System, and failed to disclose the expert witness Dr. Jeffay, who has personal experience with the system, as a fact witness. According to Cisco, the UNC Catalyst System is only an exemplar of the Cisco Catalyst System, which (and a similar exemplar at the University of Florida) was timely disclosed in its initial and amended contentions. Further, Cisco notes that Egenera has an opportunity to depose Dr. Jeffay in the following weeks. On this record, the court perceives no prejudice to Egenera. (Tang, Danni) (Entered: 06/06/2018)
