v.

Corcamore, LLC

**Katie W. McKnight,
Interlocutory Attorney:**

On October 25, 2017, Petitioner filed a motion to compel Respondent's responses to Request for Production Nos. 4, 6-16, 17-21, and 24 and responses to Interrogatory Nos. 1, 2, 6-19. The Board entered a suspension order on October 27, 2017 instructing that the "parties should not file any paper that is not germane to the motion to compel." 40 TTABVUE. In turn, on October 30, 2017, Respondent filed a motion to compel Petitioner's complete answers to Interrogatory Nos. 2, 9, and 11, and to produce related documents. Inasmuch as Respondent's motion to compel was filed while proceedings were suspended, and is not germane to Petitioner's motion to compel, Respondent's motion to compel is **denied without prejudice**. Trademark Rule 2.120(f)(2).

The Board also notes that on November 13, 2017, Respondent filed a request for reconsideration of the Board's order of that same day denying Respondent's motion for a protective order. Proceedings **remain suspended** pending disposition of

Petitioner's motion to compel. With the exception of briefing on Respondent's request for reconsideration,¹ **any paper filed during the pendency of Petitioner's motion to compel which is not relevant thereto will be given no consideration.**

¹ Briefs are due in accordance with Trademark Rule 2.127(a).
