

Meenakshy Chakravorty is Senior IP Counsel at Philips Lighting. She manages their worldwide patent portfolios in several technological areas, including smart connected lighting and services, intelligent lighting controls, and large area-wide energy and resource management solutions for energy-efficient buildings and cities. As part of her counseling practice, she regularly conducts IP due diligence investigations to identify potential acquisition targets, and provides opinions on patent infringement and validity. Prior to joining Philips, Meenakshy worked for several years as an associate at a large IP law firm in the Boston area. She received her JD from the Boston University School of Law, an MS in Computer Science from Stanford University (with Distinction in Research), and a BS in Computer Science from the University of Colorado at Boulder.
