

Dr. Johnsee Lee

Chairman of Taiwan Bio Industry Organization

Dr. Johnsee Lee is the Chairman of Taiwan Bio Industry Organization and the Founder & CEO of Personal Genomics, Inc. Prior to his current position, he served as the President of Industrial Technology Research Institute (ITRI) and Chairman of the Development Center for Biotechnology (DCB) and played a key leadership role in the development of Taiwan's world-class high-tech industries.

Dr. Lee received a PhD from the Illinois Institute of Technology, and an MBA from the University of Chicago. He is also a graduate of Harvard Business School's Advanced Management Program. Dr. Lee is the founder and the first director of the Biomedical Engineering Lab at ITRI.

Before joining ITRI, Dr. Lee held various technical and managerial positions at Argonne National Laboratory and at Johnson Matthey Inc. in the U.S.A. He was elected as the President of the Federation of Asian Chemical Societies in 1999. Dr. Lee has also served as the President of Taiwan Telecare Industry Alliance, and the President of Monte Jade Science & Technology Association in Taiwan.

Dr. Lee has published many papers and patents. He received numerous honors and awards including the National Engineering Medal, CIE Distinguished Achievement Award, the Innovation Leadership Award by Global Views Monthly, and the Excellence in Research & Innovation Award by Frost & Sullivan.
